The Terme Caronte is no ordinary spa. The curative properties of the mineral-rich water that bubbles up from deep within the Earth are nothing short of remarkable, and have been renowned since ancient times.

Equally remarkable is the continuity of the family that since 1716 has been “warmly” welcoming clients for various applications of the therapeutic thermal water.

It is primarily a medical spa offering natural preventative treatments, all of which can be found in this brochure, including the extremely popular experience of Mud with Hydromassage + Bubble Bath + Ozone. All that's left to say is: “Come on in- the water's lovely!”
